

**Your
lesion tracking
solution**

Time-saving retrieval & analysis

- ◆ Automatic retrieval and selection of relevant prior patient exams from the PACS
- ◆ Instantaneous accurate matching of exams based on non-rigid registration

Standard lesion scoring

- ◆ Automated calculation of the response to treatment in accordance with the criteria chosen by care team
- ◆ Dedicated clinical workflow fully compliant with international criteria, including RECIST 1.0 & 1.1
- ◆ Multimodal display and analysis of exams

Accurate, secure follow-up

- ◆ Immediate comparison of series and measurements
- ◆ Multi-time point view, focused on the analysis of each lesion
- ◆ Clear identification & definition of lesions: target, non-target, non-pathological
